

**Organising and Scientific
Committee**

(abstract and tutorial proposal)

Patrizia Tavella

Istituto Elettrotecnico Nazionale
G. Ferraris

Elisa Felicitas Arias

Bureau International des
Poids et Mesures

Demetrios N. Matsakis

U. S. Naval Observatory
Washington DC, USA

Bureau International des Poids et Mesures

U.S. Naval Observatory

Istituto Elettrotecnico Nazionale
Galileo Ferraris

IV International

Time Scale

Algorithms Symposium

Invitation and Call for Papers

BIPM, Sèvres

March 18-19, 2002

IV International Time Scale Algorithms Symposium

BIPM, Sèvres

March 18-19, 2002

35 scientific contributions on

- Operational time scales
- Algorithms for space applications
- Noises and statistical estimation
- Filtering and estimating
- Steering

a few tutorials

About 50 people from

- many different Time Labs
- space application (ACES, GNSS...)
- geodetic community
- a few industries

Last comment from CCTF Chairman, Prof. Leschiutta:

“...please do not wait another fourteen years for the next Time Scale Algorithm Symposium.”

Are we ready for

V Symposium

on Time Scale Algorithms

in 2007/2008?

Proposals are welcome!
