

Bureau International des Poids et Mesures

Request/Agreement for Calibration of Standard Capacitors

Name of National Metrology Institute as it should appear on the certificate:

Name of person to contact for Technical Information:

Telephone:

Fax:

email:

Unless special arrangements are made, the capacitors will be calibrated with an rms applied voltage of 100 V for 1 pF and 10 pF standards and 10 V for 100 pF standards. Calibration results will be given for two different frequencies: 1000 Hz and 1592 Hz.

Description of Standard Capacitors

Serial Number of Capacitor	Chassis (if any)	Manufac-turer	Capacitor Model Number	Nominal Capacitance	Temperature Coefficient (if applicable)	Last BIPM Certificate (No./year)

Probable Date of Delivery to the BIPM:

Customs documents and formalities: (Please indicate method by marking an "X" after the appropriate entry):

1. Member-state of the European Union, no customs documents required.	2. Diplomatic Bag. ____
3. ATA Carnet. ____	4. Other. (Please contact BIPM for details). ____

You will shortly receive a form **BIPM/ADM-DOU/F-04** giving us your shipping and customs instructions. It must be completed and returned to the BIPM Administration Section before shipping or carrying the standards.

Please indicate on the next line whether you require the Calibration Certificate to be written in English or in French.
Language:

Official Authorization:

Signature of Director or Delegated Officer of the National Metrology Institute Designated by a Member-State of the Convention du Mètre authorizing a free calibration.

Signature _____ Date _____

On the part of BIPM, I agree to carry out the calibration requested above:

Signature of BIPM electricity section head _____ Date _____

A pdf copy of the signed form will be sent via email to (indicate email address) _____

Or, a signed copy will be returned to you by fax to (indicate fax number) _____.
