

Review of Decisions arising from the WG CMC meeting 2022

List of Decisions

- DP-2022-01:** Next category for maintain the consistency of CCPR KCDB data entries for application of Machine reading (MR) for Digital Certificates (DC) is the 'smaller SC' Spectral emission properties of sources
Status: in progress, more information in PoA 7 (TG2 Update)
- DP-2022-02:** Parameter in SC 1.1.1, 1.2.1, 1.3.1, 1.4.1, 1.5.1 should read as "correlated colour temperature / distribution temperature" or "correlated colour temperature or distribution temperature", whatever is machine readable.
Status: completed
- DP-2022-03:** The update of guideline G8 was approved.
Status: competed,
- DP-2022-04:** The service categories 2.12. and 2.12.1 are approved:
2.12: Responsivity, terrestrial irradiance
2.12.1 Broadband detector: irradiance level, bandwidth
Status: in progress, more information in PoA 7 (TG2 Update)
- DP-2022-05:** The further procedure in potential considering the implementation of new 'Branch Essential Climate Variables' is to be discussed within the WG-CMC TG 3 Clarify and harmonize the CMC review process
Status: pending
