

CCTF Working Group on International Atomic Time

Meeting of the UTC contributing laboratories

Sept 12, 2025 BIPM (h 9:00 – 17:00)

Draft agenda (13/05/2025)

Welcome and introduction

1. News from CCTF
 - Redefinition of the second, continuous UTC, Moon Time
 - CCTF CBKT training program
2. Report of the BIPM Time Department
 - News from the Time dept
 - Performance of UTC/UTC_r and update in the data analysis and algorithm
 - Time transfer links in UTC/UTC_r
3. Report of related CCTF WGs
 - Current status of GNSS Rx calibrations by WG GNSS
 - Traceability to UTC through GNSS measurements
 - Digitalization activities in the CCTF
4. Laboratories data submission and BIPM products
 - Input data to the BIPM and availability of BIPM products
 - Results from the survey
 - Needs of updated products
5. Realization, monitoring, validation of UTC(k) and data provision
 - Presentation by UTC(k) labs of robust procedures for data validation and UTC(k) real time monitoring
6. Conclusion and recommendations
