### **CCAUV 2015 AFRIMETS TC-AUV Feedback**

Meeting at BIPM, Paris France  
24 – 27 November 2015

Compiled by: Riaan Nel (AFRIMETS TC-AUV Chair)

#### **1. Comparisons:**

##### a. Completed comparisons

Members of the TC are and have participated in the following comparisons since the last CCAUV meeting:

CCAUV.V-K3	(Measurements completed)
AFRIMETS.AUV.V-K3	(Final Report, Metrologia 2014)
AFRIMETS.AUV.A-S1	(Draft B circulated to CCAUV for comment)
AFRIMETS.AUV.A-K5	(in progress, expected completion 2016)
EURAMET.AUV.A-K5	(NIS, measurements complete)

##### b. Planned comparisons

The following comparisons are planned:

AFRIMETS.AUV.A-S? (multi-function acoustic calibrator)

#### **2. CMC's:**

There has been no new published CMC's in KCDB since last CCAUV meeting. KEBS has submitted new CMC's and is currently at the Intra-RMO review stage. NMISA will submit new & improved CMC's in the very near future.

#### **3. New area/parameters:**

There is a growing requirement for artificial ear calibration services in this RMO. Ultrasound and Underwater-Acoustics capabilities are in the process of being established at NMISA.

#### **4. Training:**

Training will take place as the need arise.
