

CCQM Actions – April 2026

- 1) The CCQM **approved** the report of the 30th Meeting of the CCQM.
- 2) The CCQM **approved** the closure of the Task Group on Comparison Material Transportation (CCQM-TG-CMT).
- 3) **Action:** The BIPM to contact the World Customs Organization (WCO) to explore expanding the Harmonized System (HS) codes to include study materials.
- 4) The CCQM **approved** the closure of the Task Group on Metrology for Li-ion Batteries (CCQM-TG-LI-ION).
- 5) The CCQM **approved** the closure of the Task Group on Infectious Disease Diagnostics and Metrology for Pandemic Preparedness (CCQM-TG-PANDEMIC).
- 6) **Action:** Dr Braybrook to propose new terms of reference for a renewed task group aimed at continuing the implementation of pandemic response recommendations for SPWG consideration.
- 7) The CCQM **approved** the 2021-2030+ CCQM strategy document (Version 2.5)
- 8) **Action:** The Strategic Planning Working Group (SPWG) to review and decide upon the requests for new KCDB service subcategories proposed by the working groups
- 9) **Action:** CCQM members to carefully review the new draft VIM with regard to nominal property definitions and submit comments via their NMI by 21 August 2026.
- 10) **Action:** The SAWG to draft terms of reference for a proposed Particle Metrology group, to be evaluated by the SPWG to determine the long-term organisational strategy.
- 11) The CCQM **approved** all 17 proposed CCQM comparisons.

EAWG	Assay of KCl (or NaCl, tbd) (KC)
PAWG	Determination of the Purity of Human Serum Albumin (KC) Secondary Structure of CsA (P)
GAWG	Ozone precursors (VOCs) (KC) Particle number and charge concentration (KC)- 2 subsequent comparisons Halocarbons (KC)
SAWG	Measurement of mole fraction in platinum-nickel alloy films (KC)
OAWG	Non-polar pure organic - Quinidine (KC) Pesticides in fruit (KC) Sirolimus in blood (KC) Multi-component polar pure organics in aqueous solution (KC) dIDMS assessment across different MS platforms (P) qNMR data processing for mixtures/crowded spectra (P)
NAWG	Measurement of Small Deletion in Cancer Biomarker of EGFR (KC) Measurement of Antibiotic resistance in bacteria (P) Measurement of cellular mRNA (KC)

- 12) The CCQM **approved** INM Colombia's application for member status. The proposal will now be forwarded to the CIPM for a final decision.
- 13) **Action:** CCQM members to submit written feedback and written versions of the verbal endorsement statements made during the meeting on the proposed BIPM Chemistry Department Work Programme via their NMI by 8 May 2026.
- 14) The CCQM **approved** the proposal to integrate the working group Rapporteur role into its standard procedures.
- 15) **Action:** The Nano- and Microplastics Measurements and Standards Task Group (CCQM-TG-NMMS) will update its TOR and submit to SPWG for review,
- 16) CCQM **agreed** that the CCQM-TG-NMMS pilot study will be coordinated through SAWG
- 17) **Action:** The CCQM-TG-KCRV to provide the draft revised KCRV guidance document to the CCQM by 31 May 2026 for SPWG approval, after which the task group will be closed.
- 18) **Action:** CCQM Executive Secretary to circulate open call for nominations for Working Group Chairs and Vice-Chairs in June 2026 with nomination to be submitted by September 2026.
