THE RUSSIAN GOVERNMENT

Ministry of
industry and
trade

Ministry of
finance

Ministry of
economic
development

What are the principles of
determining the funding of
metrology?

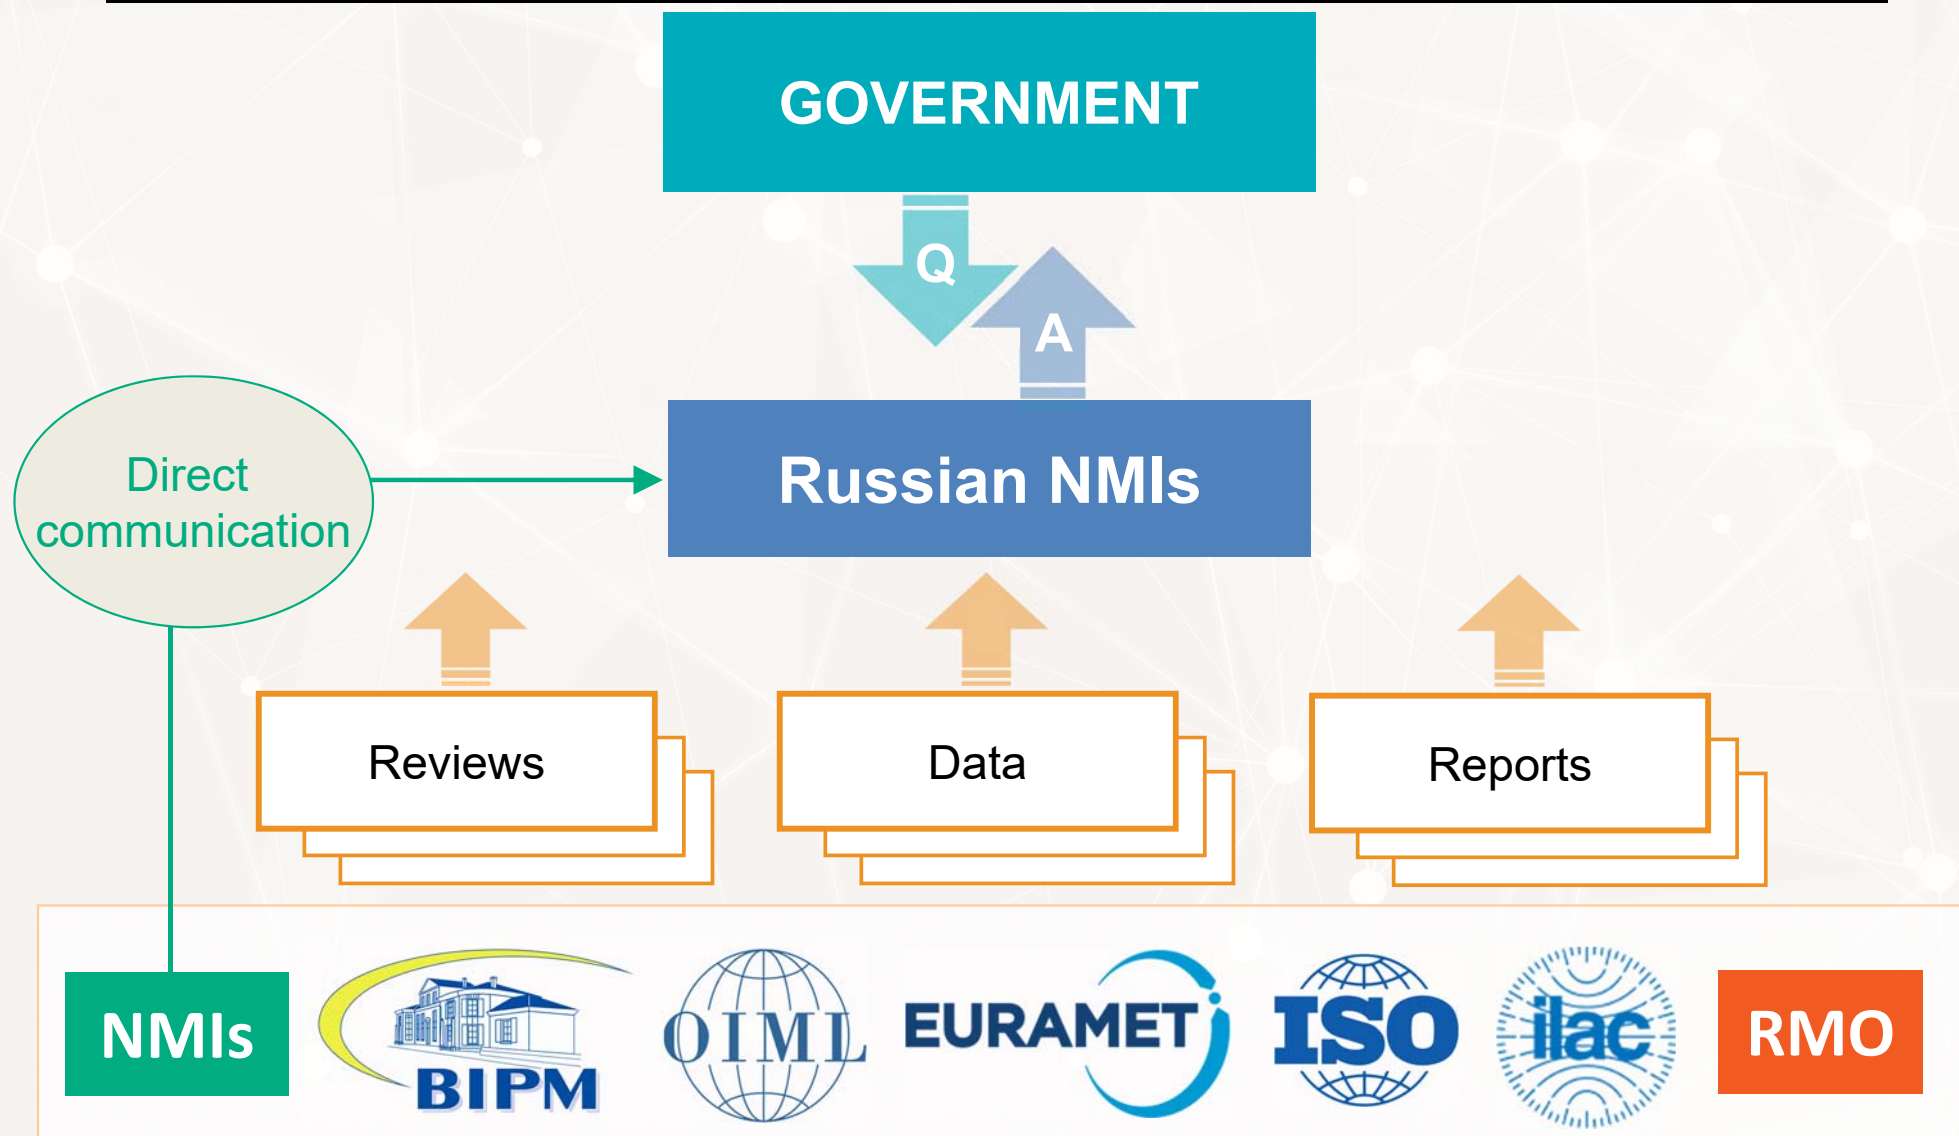

What are the benefits
metrology gives the economy?

What are the mechanisms of
influencing of metrology on the
removal of TBT?

What are the main directions
of development of reference
base?

Information of the NMI to the Government

The competence of the international experience is estimated very high in Russia

➤ Russia was among the first signatories of the Metre Convention

➤ The authority of the CIPM and BIPM in Russia is very high

➤ A careful study of the best international practices is one of the Russian traditions

How international experience influences on the national agenda

TRENDS AND TOPICS OF THE INTERNATIONAL METROLOGICAL ACTIVITIES

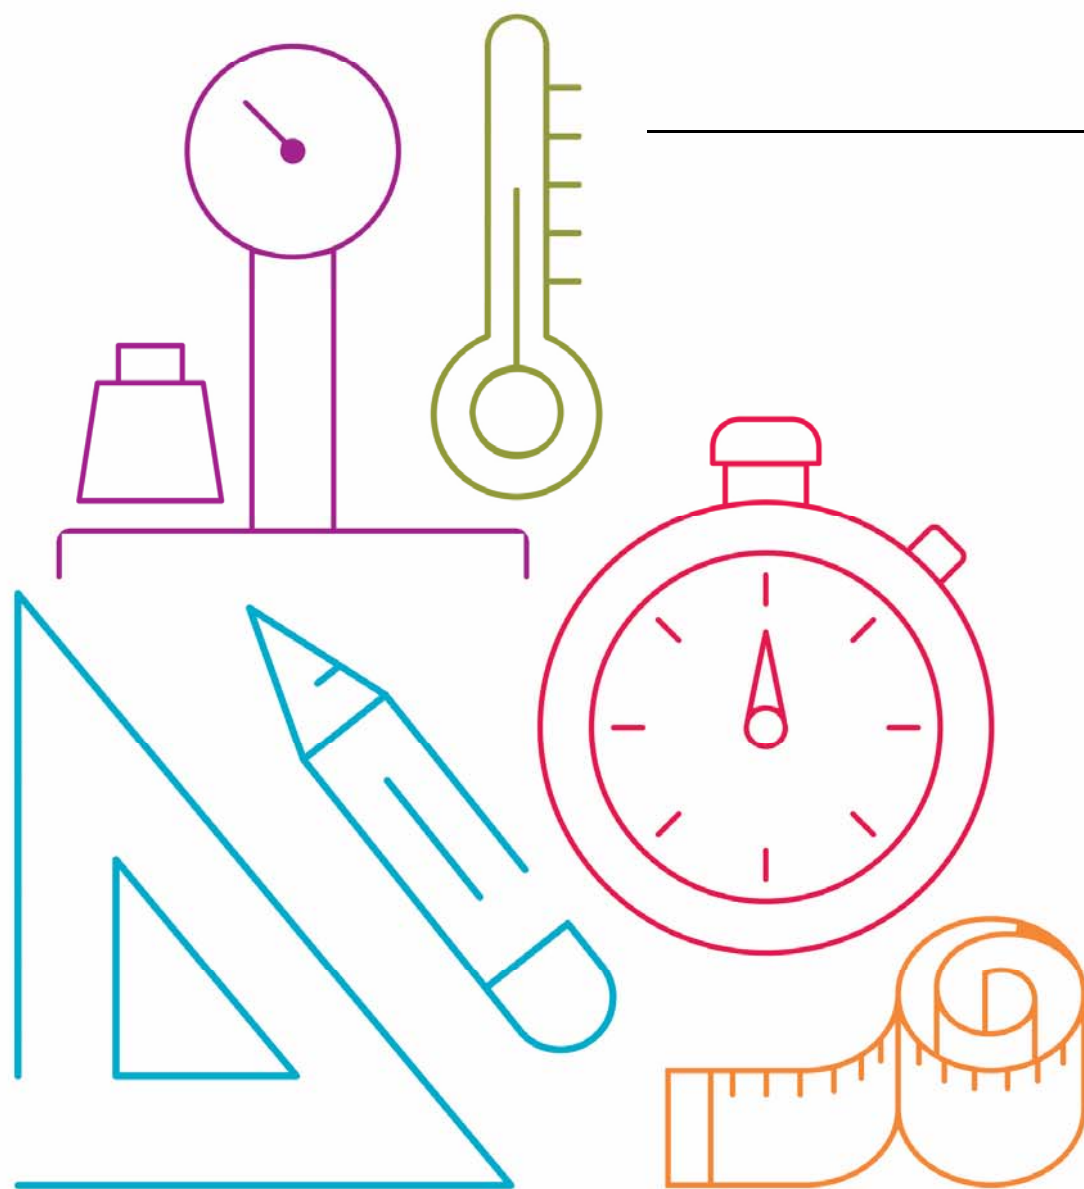

National agenda: plans, strategic plans
