

Summary Report of INMETRO Activities on Thermometry and Hygrometry from 2017 to 2020

Contact Thermometry

- Participation in CCT-K9.
- Collaboration with NIST on the evaluation of SF6 triple point cells.
- Peer reviewed in May 2019.
- ITS-90 training to technicians from Trinidad and Tobago Bureau of Standards – TTBS.
- Development of a new open zinc fixed point cell.
- Local pilot in a bilateral comparison with Trinidad and Tobago Bureau of Standards – TTBS (SIM.T-K9.3). Measurements completed.
- Acquisition of a quartz water triple point cell with isotopic analysis certificate.

Radiation Thermometry

- Recent membership in CCT-WG-NCTh and CCT-WG-BTM.
- Manufacture of a low temperature blackbody cavity and testing of forehead infrared thermometers.
- Study on the calibration of radiation thermometers by fixed points below the Ag point.

Hygrometry

- Study and characterization of a two-pressure humidity generator in the dew/frost-point temperature range from -35 °C to 68 °C (in progress).
- Development of a dew/frost-point generator (in progress).
- Study of the metrological characteristics of capacitive relative humidity sensors along the years (in progress).
- Local pilot in a key comparison with INTI (Argentina) in the dew/frost-point temperature range from -30 °C to 60 °C (SIM.T-K6.7). Final report available at the KCDB website.
- Local pilot in a supplementary comparison of relative humidity standards in the range from 30 %rh to 90 %rh (at 20 °C and 40 °C) among nine Latin-American National Metrology Institutes (SIM.T-S10). Final report submitted in November 2020.
- Technical activities related to the environment in the scope of the sub-project "Metrology for Meteorology and Climatology" of the project "Regional Fund Quality Infrastructure for Biodiversity & Climate Protection in Latin America and The Caribbean" implemented by PTB, COPANT, SIM, OAS and IAAC.
- Two papers presentation about the comparisons described above at TEMPMEKO 2019.
- Recent membership in CCT-WG-Hu and CCT-WG-Env.
- Humidity trainings to technicians of Latin-American National Metrology Institutes (CENAMEP, INEN, IBMETRO, INACAL and INTN).
- Peer reviewed in March 2019.
- Peer review in two South-American National Metrology Institutes (INTI and INACAL).
