JCRB matters: CCT update

Olav Werhahn
JCRB Executive Secretary – International Communication and Liaison Dep.
There has been an update on the documents steering and describing the CIPM MRA.

In January 2021 the previous documents have been replaced by 3 policy documents (P-series) and 3 guides (G-series).

An adaptation on the CIPM MRA-G-13 is foreseen to better align the ‘greying-out practice’ with the KCDB 2.0 platform.
Following the release of the BIPM website and the KCDB 2.0 platform, the former JCRB website has been closed.

Since 2021 all CCs are submitting, reviewing, and maintaining CMCs exclusively on the web-based KCDB 2.0 platform.
The JCRB requests the Executive Secretary to include the possibility of up to two additional observers from each RMO when issuing the convocation for future online JCRB meetings.

**Action JCRB/44-2 (2021)**
The JCRB requests the Executive Secretary to include an agenda item for the 45th meeting of the JCRB regarding the validity of RMO-approved quality management systems, to coincide with the end of the extension period granted at the 43rd meeting.

**Action JCRB/44-3 (2021)**
The JCRB requests the Executive Secretary to upload proposed draft changes to CIPM MRA-G-13 onto the JCRB site, and requests that the RMOs review these minor changes, with a view to approving the revised text at the 45th meeting of the JCRB.
There are 25887 (25774) CMCs published in the KCDB.

A levelling is evident over the last decade – however, matrix and more recently broad scope CMC impact.

About 1400 CMC have been edited, reviewed and finally published using exclusively the (new) KCDB2.0 platform.

All CCs now fully compatibility with the KCDB2.0, incl. CCQM.
CMCs – status

- There are 25887 (25774) CMCs published in the KCDB.
- A levelling is evident over the last decade – however, matrix and more recently broad scope CMC impact.
- About 1400 CMC have been edited, reviewed and finally published using exclusively the (new) KCDB2.0 platform.
- All CCs now fully compatibility with the KCDB2.0, incl. CCQM.

With CCT acting on 2942 CMCs in total
There are 2942 CMCs published on T in the KCDB.
The number of new approvals in the T area is changing since 2017 with huge bump upwards in 2020 where submissions have been nearly tripled.
The distribution of T CMCs is reflecting the global distribution of all CMCs.
### T CMCs – greyed out

| EURAMET-T-DE-00000BJ6-1 | 2020-11-16 | Germany | T | 2025-11-16 |

- More direct user actions possible with the KCDB 2.0 platform.
- Automated information sent by the KCDB.
- An update on CIPM MRA-G-13 regarding ‘grey-out practice’ has been discussed by the JCRB.
T CMCs – Review in the KCDB 2.0 system

- KCDB2.0 now gives performance evaluations for intra RMO and JCRB review.

- The JCRB review duration has decreased from about 140 to 60 days (median) across all metrology areas, T doing slightly worse based on 67 days median value.

- Across all 31 published CMCs in T (2021) now 221 days in RMO review → ?
T CMCs – new in the KCDB 2021

- KCDB2.0 now gives performance evaluations for intra RMO and JCRB review.
- The JCRB review duration has decreased from about 140 to 60 days across all metrology areas, T confirms this based on 67 days median value.
- Across all 31 published CMCs in T (in 2021) now 221 days in RMO review → ?
Thank you!
