CCEM 100th Anniversary: Young Scientist Poster Competition

Call for Posters

A. Eligibility & Theme

The competition is open to early-career authors (single author submissions only) who have no more than eight years of professional activity after receiving their highest degree. Researchers from National Metrology Institutes (NMIs), Designated Institutes (DIs), industry, or academia are all welcome to participate.

Submitted posters must be technical in nature (similar to posters presented at CPEM or related scientific conferences) and directly address precision electrical metrology. Topics of interest include current challenges for electrical metrology as well as future challenges and emerging opportunities within the field. All submissions will be judged together in a single category.

B. Format Requirements

- **File Format:** PDF only (no audio or embedded video).
- **Orientation and Size:** Portrait orientation; standard A0 or 36" x 48”.
- **Typography:** Minimum font size 24 pt for body text; minimum 36pt for headings.
- **File Size:** Maximum file size of 10 MB.

C. Submission Logistics

Please email your poster in PDF format to ccem100posters@bipm.org no later than January 15th 2027. Submissions must include a brief author biography in PDF format (maximum half a page).

D. Prize and Notification

The winner will receive travel support of up to €2,500 to attend the CCEM centenary celebration on March 10, 2027, in Sèvres, France, where they will be invited to deliver a 5-minute presentation on their research.
Posters ranked 2nd through 10th will be displayed during the event. The winner and runners-up will be notified of the results by February 1, 2027.

E. Public Release & Permissions

All eligible posters will be made publicly available on the CCEM website. By submitting, authors confirm that their work is approved for public release and free of proprietary or confidential restrictions.
