CAPACITY BUILDING AND KNOWLEDGE TRANSFER PROGRAMME (CBKT)

The BIPM CBKT Programme increases the **effectiveness** with which **Member States** and **Associates engage** in the **world-wide coordinated metrological system.**

80+ activities have been delivered to 5 800+ participants.

IMPACT The Programme helps countries to build sustainable metrology systems, laying the groundwork for innovation, trade, sound regulation and a better quality of life world-wide.

KEY ACHIEVEMENTS SINCE 2022

BIPM/OIML joint knowledge transfer initiative

Building on the joint publication*, National Metrology Systems - Developing the Institutional and Legislative Framework (OIML D 1:2020),* the BIPM and OIML undertook complementary activities to support its implementation, including **publishing brochures**, **launching e-learning modules**, and **organizing regional workshops** bringing together legal and scientific metrology experts.

BIPM/RMO Forum: supporting RMO secretariats

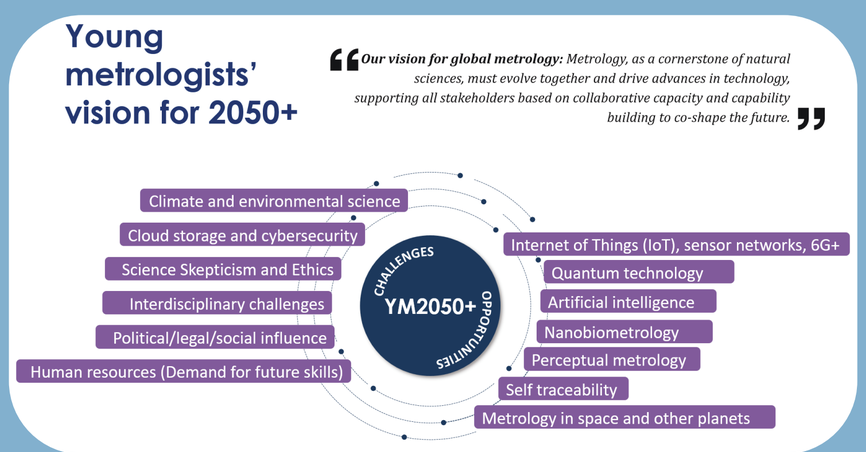

Credit: BIPM

The BIPM and RMOs maintain close collaboration to ensure continuous exchange of information and effective coordination in metrology activities. The BIPM/RMO Forum brings together existing and evolving areas of collaboration, including knowledge management, digital transformation, communication and strategic priorities, as well as emerging topics of common interest. It provides **a platform for sharing experiences, knowledge and information,** and to discuss **new opportunities for collaboration.**

First young metrologists' programme: A Vision for 2050+

The BIPM's Young Metrologists' 2050+ Vision programme inspired innovative ideas from the next generation of metrology leaders. The programme brought together over **380 young metrologists** to share their **perspectives on the future of metrology**. Selected outcomes were included in the CIPM Strategy 2030+.
