

# EAWG strategy

Michal Máriašsy

# Overview

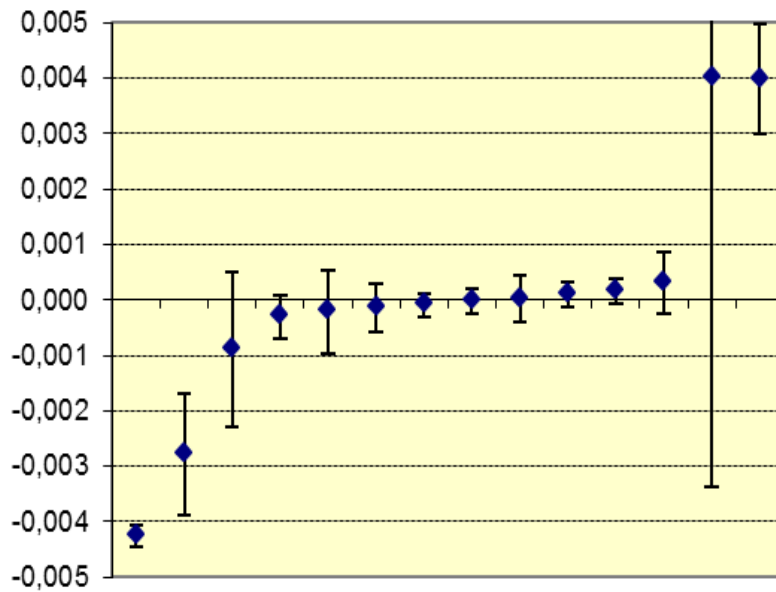

## Changes in the updated strategy

- No significant changes were considered necessary in the strategy document

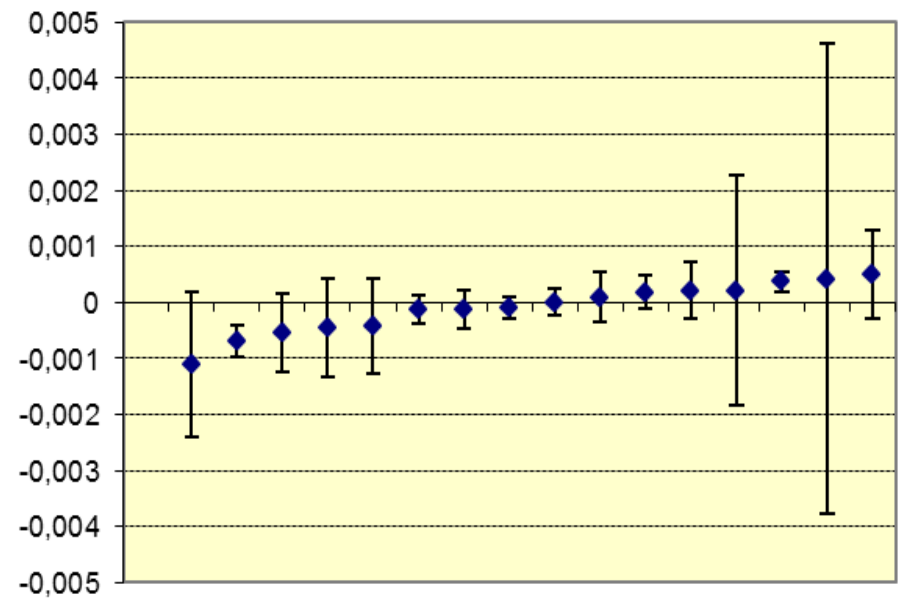

## Major achievements for WG in last period

- Increasing participation in work & comparisons
- Improvement of performance of many institutes
- Improvements in understanding the measurement process, harmonisation of uncertainty estimations,
- Customer needs reflected in the work – biofuel conductivity, seawater pH and conductivity, ..

CCQM-K36.2016, 0,5 S/m,  $U_i$

## Major challenges:

Decreasing staff and resources  
coordinators for comparisons  
sample delivery

- 1-3 comparisons per year expected
